

BARE HAND SURGERY IN THE PHILIPPINES

Many trips are scheduled. See www.therapies.com/surgery for a list

Three courses now offered: **Psychic Surgery; Reiki Masters; Staying Healthy**

What is Bare Hand Surgery ?

- Bare Hand Surgeons enter a person's body using his / her Bare Hands and manually removes diseased or dead tissues, tumours, calcium deposits and other matters that should not be there. This is done without inflicting any pain, coming out without leaving any visible marks or scars.

Impossible? Only according to modern scientific standards. I have been involved with Bare Hand Surgery since 1998 and I have witnessed and filmed many major operations performed in minutes without anaesthesia or drugs of any kind.

What conditions can be treated ?

The following represents only a few examples of conditions I have seen treated by the various Bare Hand Surgeons I visit:

- Seven years ago, Bare Hand Surgery was performed on a friend of mine suffering from Parkinson's disease. This successfully stopped the progression of the disease for many years.
- A Psychic surgeon cleared "growths" from around my prostate. He then left a Kleenex tissue inside my body overnight to prevent the seeping of blood back in the testicles (I could feel the tissue inside me).
- I had a 12" tumour removed from my large intestines. I was eating a normal meal half an hour later.
- A surgeon cleared the ovaries and fallopian tubes of a patient.
- Another patient had 12 feet of growth removed from his colon. He had been suffering from IBS for years. IBS is now gone.
- I had 42 tumours removed from my liver over a period of two weeks in September 2001. This was witnessed by 5 participants.
- The eyes of a person suffering from cataracts were "cleaned"
- One member of our group had growths that were attached to her spine removed. This lady had had problems moving her head fully and had suffered from chronic pains in her shoulders for many years. The instant improvement to the head was obvious and her shoulder pains have now completely disappeared. Months of physical therapy had previously had very little impact.
- One surgeon removed many diseased tissues from another group member. This man was gradually losing the use of his hand and arm and the left side of his body was slowly being paralysed. He is now well and full of energy.
- I witnessed two different Bare Hand Surgeons successfully remove **deep brain tumours** from two different patients.

- A "goitre" was cleared from a man's throat
- One surgeon removed numerous tumours from the reproductive organs of a patient who was suffering from terminal cancer. This person is now feeling alright
- One surgeon cleaned the arteries around the heart of a patient
- etc.... etc.. the list is too long to mention.

Most of this has been filmed and can

be seen on DVD.

Basically, Bare Hand Surgeons do not specialise in any specific disease. They work with "energy" on everything presented to them.

Is there any guarantee of success ?

There is no implied or explicit guarantee that, should you decide to come to the Philippines with our group, any surgeon will be able to help you with your health problem.

We strongly recommend that you seek medical advice and care for any medical condition from which you may suffer .

But please come to one of our free evenings / days when I will show the video tapes of our trip and answer questions. The event is free of charge and no pressure will be put on you to visit the Philippines.

Why go to the Philippines?

Participants on the trips go for various reasons:

- Some go because Filipinos are extremely friendly and the stay at the sea side makes it a very attractive beach holiday with some healing and learning.
 - Some go because they have a medical condition that baffles modern medicine.
 - Some are just curious about Psychic Surgery
 - Some have had a health problem for many years and would like some help with it.
 - Some go to take part in one of the course on offer (more latter)
- Whatever your reason for going, remember that if you have a medical condition, we do not guarantee that any healer will be able to help you and that you should consult a medical practitioner.

[Jun- Psychic Surgeon](#)

See dates at www.therapies.com/surgery

Jun was born on 23 December 1934 in Dagupan City in Pangasinan, Philippines.

Jun is awesome in his mastery of Bare Hand Surgery.

Jun's background

Jun's parents belonged to the "Union Espiritista Christiana de Filipinas" (a spiritualist church that has taught numerous healers in the Philippines). Jun's mother was a psychic dentist and she forced Jun to go to church on Sundays. Jun was not keen on spending part of his Sunday in

church and used to sneak out to play with his friends.

One Sunday, he became paralysed during a church ceremony. In a state of shock and with fear, he witnessed his first apparition of Jesus. This was Jun's first encounter with Jesus who was to become one of his spirit guides for all healing.

His first healing experience came when he was accompanying his mother on a religious walk. One woman collapsed and Jun instinctively began rubbing her chest. Blood spurted out and Jun ran away in fear. The crowd brought him back and asked him to finish the healing. Jun carried on rubbing the woman's chest and she fully recovered.

The personality

Jun probably is the most flamboyant Filipino healer alive today. He is often referred to as the Muhammad Ali of Filipino healer because of his extrovert personality. Jun has been credited with some amazing healing. In his book the "Magician of God", Jaime Licauco reports that: "I saw June lift the eyeball of a Japanese patient suffering from glaucoma out of its socket, extract some blackish tissue from underneath the eyeball and then return the eyeball to its socket without the patient feeling any pain. It was a rather bloody and eerie operation which apparently did not damage to the eye".

Jun has, so far, married four times. His last wife (and soul mate), Lisa, lives with him in the Philippines. She is a Russian lawyer. His previous wives were respectively Filipina, Australian and Japanese.

He ran for election and became Mayor of Baguio City in 1988. His term only lasted 2 years as his citizenship was questioned (his second wife was Australian and he was supposed to have adopted and kept that nationality). He eventually had his Filipino citizenship reconfirmed and was elected again in 1992.

Jun claims to channel Jesus and an Indian guide named Rama during his surgery.

Jun practices in very comfortable surrounding in his own healing centre in Nagoya Inn

Jun's diagnosis techniques

In order to find out the condition of a patient, Jun holds a sheet in front of the patient and use

it as a form of psychic x-ray. Through it, he is able to see spots inside the patient's body. If the spots are dark, then the disease is serious (location and number of tumours are shown to him). If the spots are bright, it is not so serious.

A film - narrated in English by Burt Lancaster - was made on Jun by producer Alan Newman in the early 1980s. In this film, Jun was seen operating on a Filipino patient suffering from eye problems. To diagnose the patient, Jun used his sheet as an X-ray and doing so, spotted something in the throat of Alan Newman who was standing

behind the patient. After a successful operation on the Filipino, he asked Alan to lie down and operated on his throat, removing a large quantity of pus from it. Newman later confirmed that he had had problem with his throat for the past 8 years but had not told. After the surgery, Newman was able to breathe freely for the first time in 8 years.

Dr Shealy later confirmed the blood taken out of the Filipino was genuine.

One of the most tested healers in the Philippines

Jaime Licauco in "Magicians of God" states: "Many scientists including Dr Alfred Stelter, Dr Gerrit Bretzler both from Germany, Dr Hans Naegeli of Switzerland, Dr Nagato of Azuma of Japan and Dr Lee Pulos of Canada have declared Jun genuine. Dr C Norman Shealy, a Neuroscientist and head of the Pain Rehabilitation Clinic in La Crosse, Wisconsin and Dr Elmer Green, a director of the Menninger Foundation in Topeka, Kansas both testified that the blood taken out of Jun's patients was genuine human blood".

Stories

I was allowed to witness and take pictures of many of Jun's surgery.

One day, famous psychic writer Jaime Licauco was present with Tania, a guest visitor from Russia. Jun operated on Tania and at the end of the surgery asked Jaime to come to the couch and give him his hand. Jaime obliged and Jun said a prayer, blew on Jaime's hand, positioned it above Tania's body and sliding Jaime's index finger down from the sternum to below the navel opened Tania's body up with Jaime's finger.

The energy projected by Jun was so strong that Jaime staggered back and nearly collapsed after this experience. Jaime is himself a very psychic person and easily goes in a trance.

The magic of seeing through the body is extremely useful. I visited Jun in December 05 having suffered from a left elbow complaint since August 05. Jun looked through his bed sheet (X-ray machine) and started working on my inner left shoulder where he claimed the circulatory blockage was. The next day my elbow pain was gone for the first time in 4 months... I know this is a small thing to mention as Jun routinely removes cancerous tumours from people's body but I wanted to mention it anyway. I could have gone around all types of specialists in the UK or abroad, I would have been given all types of pills but nobody would have gone to my shoulder to remove some unnecessary tissues that were blocking my blood circulation. To me, this is the magic of Jun's Psychic Surgery. To know where to go to remove all types of physical problems.

Healing with Jun

If you wish, you will also be able to visit Jun each morning for a healing session. Donations of \$100 should be given directly to Jun

for each session.

During a session, Jun will use his bed sheet as an X-ray machine and "see" inside your body what needs to be done.. and do it. Should you have a specific problem, you can mention it to Jun who will work on it.

I am sure you fully appreciate that I cannot give any guarantee that Jun may be able to help you with any physical or emotional problem.

Jun charges €100 per healing session.

[Johan Paquito — Psychic Surgeon](#)

[See trip dates at www.therapies.com/surgery](http://www.therapies.com/surgery)

Johan was born on 3rd June 1968. He is a missionary who started his healing career at the age of 30.

In 1998 Johan was working for the Government Services in the mountains of a nearby province when a bright blue flame that came from the Eastern part of the sky struck him and blinded him. After that day, Johan carried on with his work in the Services but there was a voice that kept telling him that working there was not his job.

He then was sick and the doctor diagnosed a tumour in his left lung. This diagnosis was wrong. Johan prayed and gave himself hands on healing. The Holy Spirit communicated with him and told him that his illness was Pneumonia. He trusted this message and kept giving himself healing and cured himself.

When one of the healers here in Baguio heard about him, he sent him to Poland where Johan cured a business man who had been paralysed in a wheel chair for many years. This was the beginning of his full time healing career. He is a member of Philippines Healers Circle (PHC). He has worked several times in Poland and also in South Africa.

Johan is a gifted Psychic Surgeon and Magnetic healer. Like most **genuine** Psychic Surgeons in the Philippines, Johan claims to channel the Holy Spirit. A Psychic Surgeon generates blood when operating. See some of our videos [here](#).

Johan has many remarkable cures under his belt: Most Cancers including the so called "Incurable Cancer of the Liver", paralysis, heart problems, pancreas, kidneys, lungs, throat, head, limbs, mental/ emotional problems and just about any other problem you can think of.

Like most healers, Johan does not specialise in treating specific ailments. It does not matter what your health problem is, Johan may be able to help.

Johan has successfully helped several thousands clients since 1998.

Johan is nicely tempered and considerate. He will listen to you and always try to help you. He speaks good English.

Information on our destination at the sea side

The hotel we have chosen in is situated right on the beach and if you like swimming this is the place. The water temperature usually is around 28C and very pleasant indeed. A long beach with very few tourists can be accessed just outside the hotel.

The hotel provides deck chairs and if you are the type to do nothing all day and just lie down in the sun, you will enjoy the setting.

Those of you who are a little more active may want to experience Scuba diving with a qualified instructor in town.

Local fishermen will be keen to take you a boat ride away to "White sand" or to "100 islands". Your lunch for the day will be fished during the trip and barbecued fish cooked by the fishermen can be enjoyed at your destination.

enjoyed at your destination.

The town of San Fernando is only 3 miles (5 kms) away and can be accessed by hiring a trike (motorbike with sidecar) or by taking the local Jeepney (minibus). The market is well worth a visit and many bargains can be had in San Fernando.

Lunch is at one of the many restaurant overlooking the beach or at a local place. The cooks will cater for special dietary requirements if given some notice.

The evenings are free and visitors sometimes meet to practice healing, talk, meditate, have a drink or go out.

Sunset is fantastic and well worth a few pictures.

Of interest :

Massage or Shiatsu costs about £5 to £7 in the Philippines. Many visitors avail themselves of this by having regular massages.

If you enjoy swimming, this is the place. The water temperature is about 28° and wonderful. Make sure you bring your swimming gear with you.

Who is your organiser?

Patrick is of French nationality. He started his career in computers when he was the founder and owner of a software house. The deep recession that struck the UK in 1990/1 saw an end to that business.

This was wonderful as after many years of stress, Patrick's health was very poor. He had serious problems with his liver (like most French men), large intestines and was suffering from arthritis in his left knee. For many years, Patrick had tried to take care of his health by using natural remedies and he had a fascination for Alternative Therapies.

At last the recession gave him the time to study as there was no customer in sight from his computer business. He first studied Bach Remedies and having ran out of books to read on the subject, he moved on to Aromatherapy. He joined various evening courses in 1990 and in 1991 qualified in Anatomy & Physiology and Massage. He then pursued his studies in Aromatherapy and Reflexology and qualified in both.

His health improved but his liver was still cause for great concern. In 1991 he became Macrobiotic and started to eat and live a much healthier life. His Macrobiotic studies allowed him to study the effects of different food on the body, the effects of chemicals, and the cause of disease. He followed courses in Oriental Diagnosis, Shiatsu, Feng Shui, Nine star KI etc..

Patrick started studying various method of healing in February 1993, starting with Reiki and then progressing to Seichem and Karuna. Patrick now is a Master is all 3 methods of healing.

Nowadays, Patrick teaches Massage, Aromatherapy, Reflexology, Macrobiotic, Oriental Diagnosis, Indian Head Massage, Acupressure Massage, Reiki, Seichem and Karuna. He runs a team of teachers / friends who like him have a fascination for natural healing.

Patrick also gives Macrobiotic consultations on the internet (see <http://www.therapies.com/macrobiotics/>) to people with poor health. His belief is that in order to eradicate a disease, you must go back to its cause and try to suppress it.

He is currently writing a book (Don't Give Up). The aim of the book it to help people who have been diagnosed with a serious condition such as cancer and do not know who to turn to or what to do. The book will detail Patrick's natural approach with Cancer, heart problems and other serious health conditions.

Since 1997, Patrick has been working with Filipino Bare Hand Surgeons.

He now lives in the Philippines and organises frequent trips for people who believe their health can be improved by this form of healing.

His health problems are now kept in check through Macrobiotic living, Bare Hand Surgery and regular Alternative Therapy treatments
